### Education

PhD	University of Western Australia	2003
BSc (Hons 1st)	University of Western Australia	1995

### Biography

I was born in 1974 in Oxford, England, and grew up in Perth, Western Australia. There I completed a Bachelor of Science (1st class) at the University of Western Australia, 1995, followed by a PhD, completed in 2002, in which I developed a mathematical model of language production. Following the completion of my PhD I moved to London to pursue film and theatre.

My films have been screened at the Videonale 11 festival in Berlin, the Portobello film festival and at The Whitechapel art gallery and theatre pieces performed in the Sprint Festival at the Camden peoples' theatre.

I am currently producing three of my own films and involved in a theatre and art collective, Behind the Bike Shed, that produces regular theatre and art events.
